For Healthcare Facilities

Overview

The dual magnetic stripe/proximity reader from CBORD® accomplishes both magnetic stripe and proximity card reading. This single reader solution is less expensive and has a smaller footprint than two separate readers.

The dual reader is weatherproof and features an appealingly small profile (4.6" L x 2.4" W x 1.4" H). This reader is ideal for locations where space is at a premium and is more cost effective than installing and maintaining multiple readers.

CS Access Integration

The dual reader is fully integrated with CS Access™, CBORD's access control solution for Odyssey PCS™. Access logs are stored in CS Access's database, allowing for simplified report generation.

Features

- **Weatherproof**
- **Online operation**
- **Two programmable LEDs**
- **Small profile**
- **No need for two readers at one door**
