- Personal assistance to help you build your business case

For Healthcare Facilities

Increase patient satisfaction

Room Service (Call Center)—Serve patients what they want when they want it.

Room Service (Bedside)—In-room, in-person service.

Diet Office System—Redirect FTEs from clerical tasks to direct patient interaction; improve clinical compliance.

Clinical Interfaces—Real-time HL7 Admission/Discharge and Transfer data and Diet Order updates help ensure patients receive the meals they expect.

GeriMenu® for Long-Term-Care facilities—A complete foodservice software program with tray ticket photos for easy identification; the resident receives the right meal.

Increase clinical efficiency

Nutritional Screening & Assessment—Quickly identify patients at risk and rely on patient visitation reporting to coordinate your dietitians' workloads.

Intake Analysis—Save time with single entry, automated intake analysis and reporting.

Nutritional Accounting—CBORD's extensive database supports your nutritional requirements with less work by your staff. Integrate nutritional strategies into your recipe and menu development easily.

Looking for...

- **Increased patient satisfaction scores?**
- **Major food cost savings?**
- **Net-based foodservice programs?**
- **Cashless cafeteria systems to increase revenue?**
- **Unmatched return on your dietary software investment?**
- **Success with little risk?**

Healthcare solutions from CBORD

Save money

Order what you need—Reduce inventory carrying costs and overproduction with the most automated forecasting and purchasing program available.

Communicate directly with your vendors—Receive price updates with electronic ordering so you can modify menus to meet food cost goals as prices change. Demandbased ordering will help you reduce your inventory levels without unnecessary risk.

Control inventory management better—Know how much your customers have consumed and how much you need to order—and when. Minimize spoilage and always meet demand.

Take inventory more easily—Forget the clipboard and pencils! Just use CBORD's handheld inventory management system—which integrates with your CBORD Foodservice Suite. You'll know what you have and what you need.

Catering management—Focus your staff's time on the quality of your events instead of the hassles. Maintain appropriate margins and ensure that 100% of the catering costs are captured and billed to the appropriate departments.

Use net-based applications

These client-friendly, interactive products enable you to retain central control while allowing your clients to deal with you directly—CBORD takes you to where your customers are.

NetNutrition®—Interactive nutrition information is just a click away. Customers can access this information when they want and how they want it. Includes easy-to-read pie chart of calories from protein, fat, and carbohydrates. Can be branded to match your website's look and feel.

NetCatering®—Allows end users to choose selections and fill out standardized forms from your intranet website. Provides easy customer access, more uniform controls, and better communication to and from the nutrition services department.

CBORD support

CBORD offers remote software support 24 hours a day, seven days a week. This means that regardless of when you have a question, you can call the CBORD support team and receive immediate assistance.

A CBORD briefing

The CBORD Group provides more card systems than any other company in the industry. The reason is simple: CBORD knows what its customers want, and delivers it. Wherever you see the CBORD logo, you can feel confident that you have the very best card system available.
